

# NFR Tenant Guide.

Your free Not-For-Resale Growth tenant

Partner Resource

For authorised partners only

[sreoncall.com](https://sreoncall.com)

[partners@sreoncall.com](mailto:partners@sreoncall.com)

Every active SREonCall partner gets **one free Not-For-Resale tenant** on the Growth plan for internal use. This guide covers what it is, what you can do with it, and how to request provisioning.

## What's an NFR tenant?

A Not-For-Resale tenant is a **full Growth-plan SREonCall tenant** — same features, same performance, same support — provisioned for you at no charge, on the condition that it is **not resold or used to deliver commercial services** to customers.

Think of it as your sandbox, your demo environment, and your internal monitoring all in one.

## What you can use it for

- ✓ **Demos and pitches.** Show prospects a live environment with real data.
- ✓ **Training your team.** On-board new solution architects and support engineers.
- ✓ **Certification prep.** Practice against a real system before taking the Partner Certification exam.
- ✓ **Internal monitoring.** Monitor your own infrastructure — this is genuinely encouraged.
- ✓ **Evaluating new features.** Preview features land on NFR tenants first.

## What you can't use it for

- × **Delivering services to paying customers.** That's what Reseller and MSP tenants are for.
- × **Routing customer production alerts.** Same reason.
- × **White-labelling for a customer.** NFR tenants are branded SREonCall.
- × **Stress-testing to 10x the Growth plan limits.** Ingest fair use applies.

If you need any of the above, upgrade the NFR tenant to a paid plan or provision a separate commercial tenant — both take a day.

## What's included

| RESOURCE           | NFR ALLOWANCE                                                                                |
|--------------------|----------------------------------------------------------------------------------------------|
| Seats              | 15                                                                                           |
| Services monitored | Unlimited                                                                                    |
| Metric ingest      | 500K series                                                                                  |
| Log ingest         | 25 GB/day                                                                                    |
| Trace ingest       | 1M spans/day                                                                                 |
| Data retention     | 30 days                                                                                      |
| Synthetic checks   | 50                                                                                           |
| AI agent runs      | 1000 / month                                                                                 |
| Support            | Community ( <a href="mailto:partners@sreoncall.com">partners@sreoncall.com</a> for blockers) |

These match the paid Growth plan except for AI agent runs (paid Growth gets 2500/mo).

## How to request provisioning

1. Log in to the **partner portal** at <https://sreoncall.com/partner>.
2. Navigate to **Resources → NFR tenant**.
3. Click **Request provisioning** and fill in:
  - Desired subdomain (e.g. `acme-partner.sreoncall.com` )
  - Company legal name
  - Primary admin email (must be your company domain)
  - Billing address (needed for tax record-keeping even though it's free)
4. We aim to provision within **1 business day**. You'll get an email with admin credentials.

## Renewal

NFR tenants are provisioned for **12 months** and auto-renew as long as your partnership is Active and the tenant has shown activity in the last 90 days. Dormant tenants are archived; archived data can be restored within 30 days.

## Questions or issues?

[partners@sreoncall.com](mailto:partners@sreoncall.com) — prefix the subject with **[NFR]** for faster routing.
